

## Model TP/TPH

### Extremely versatile

Vaculex TP is extremely versatile and handles a great variety of goods in size, shape and weight. Vaculex grips the goods from any side and lifts it, you can easily rotate either the lift or the goods 360° to place it where required.

### Good ergonomics is good economics

Repeated lifts do not have to be heavy to be both dangerous and costly. Most often, vacuum tube lifters lead to an increased work rate and better productivity.

### Product Feature

- Lifting capacity 35kg.
- Extremely fast / Increases productivity
- Safe /Ergonomic
- Light and flexible/ User-friendly
- Causes less parcel damage
- Low investment and Low service cost
- One Hand operated tube Vacuum Lifter

Non-return valve.

Efficient air filter.

Vacuum pump

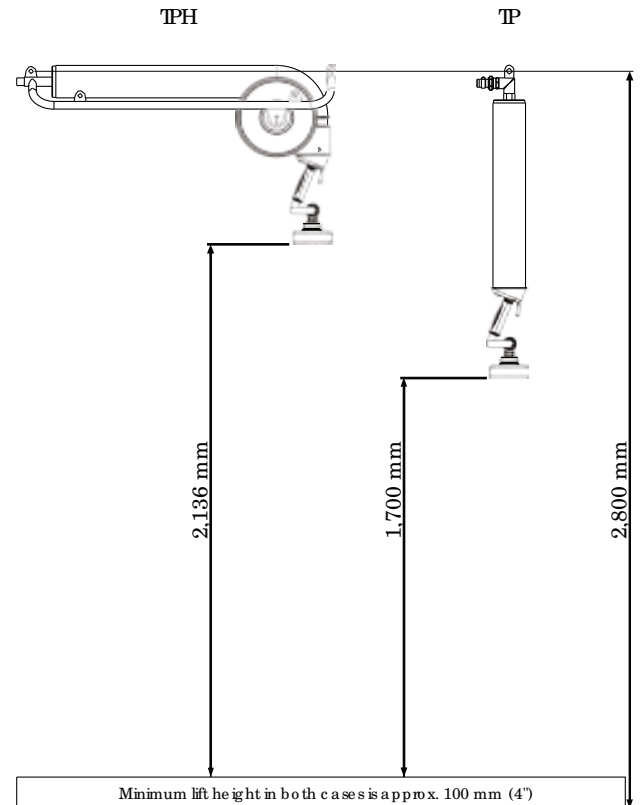

## Technical specifications

Lift unit	TP/TPH
Lifting Capacity	0-35 kg
Total length extended	2.9 meter
Total length contracted	1.2 meter
Suction bellows cup diameter	150 mm
Safety Factor (suction force vs.lifting force)	2.3 time
Lift tube diameter	100 mm

### Electric pump Vaculex 802 and 902 mounted in silencing box

Power	802 : 1.25kW , 380V50Hz 902 : 2.4kW , 380V50Hz
Weight	76kg
Sound level 1 meter from silencing box	902 : 63dBA 802 : 54dBA

## Jib Crane dimension

Description	
Installation height(Mast)	3.5 m
Crane Length	3 m
Arm swing angle	270 °

## Option

Silencing Box

Stainless Suction

Mobile Base

## Application

Yoke foot

Rect.suction foot

Oval suction foot

Yoke foot
