

Storage Bin : Back Hanging

Material: 100% Virgin PP

Back Hanging Storage Bins

Back hanging storage bins are used together with louvered panels to place spare parts of automobiles, hardware etc. for better management by classifications. They are made from 100% Virgin PP (Polypropylene) and able to resist the damaging effects of oils, not sensitive to acids and alkaline solutions and good moisture-proof performance.

Features:

- ▶ Flat side profile leaving no gaps between bins to optimize the space utilization
- ▶ Easy hanging on the louvered panels and available to the single-side louvered panels or the double-side one
- ▶ Extra wide stack ledge assures the strong stability and high load capacity
- ▶ Wide hopper front allows easy access for quick parts picking and provides easy and maximum visibility of contents to users
- ▶ Label holders for easy Identification of labels on the front
- ▶ Optionally manufactured in conductive material against electrostatic discharge upon request (ESD)
- ▶ Temperature resistant from -25°C to +60°C
- ▶ Standard color: Blue, Yellow, Red (If other colors requested, MOQ ≥ 500pcs)
